

Boys New York State Rankings 2016

NOTES:

1. As is the case in the national NISCA Power Point Rankings, Public High Schools and Private Schools are listed in different classifications. You will note that there are two rankings (independent and public high school).
2. An actual dual meet during the season will take highest priority in ranking. These are noted with an asterisk (*).
3. If teams are 50 or fewer Power Points apart, the mock meet will take priority.
4. If two teams are 51 or more Power Points apart, and the lower Power Point team is the winner in a mock meet, the two teams will be deemed a tie.
5. Considerations will also be given regarding mock meet scores vs common opponents.
6. If there was an in-season meet not recorded, please contact Mark Morris either via email or telephone: mark14morris@yahoo.com, cell - 585-317-9869
7. Thank you for your participation.
